Profile

PhD candidate in computer science, expecting to graduate in August 2020. My research focusses around the intersection between (hyper)graph problems, optimization, machine learning, quantum and high-performance computing. I have extensive experience designing and implementing hybrid quantum-classical algorithms, with particular interest in variational and decomposition-based approaches (including multilevel).

Peer-reviewed Publications

Justin Sybrandt, **Ruslan Shaydulin**, Ilya Safo. Hypergraph Partitioning With Embeddings. In *IEEE Transactions on Knowledge and Data Engineering*, 2020. DOI: [10.1109/TKDE.2020.3017120](https://doi.org/10.1109/TKDE.2020.3017120)

Education

Clemson University, SC

Summer 2020

PhD in Computer Science, advisor: Ilya Safro

Master of Science in Computer Science en route to PhD

Fall 2019

Research in algorithms, high performance computing, big data analysis and quantum computing

Relevant coursework: Design & Analysis of Algorithms, Data Mining, Distributed & Cluster Computing, Parallel Architecture, Network Science

Moscow Institute of Physics and Technology

Summer 2016

Department of Control and Applied Math,

Bachelor of Science in Applied Mathematics and Physics

Minor: Computer Science and Data Analysis

Work Experience

Research Intern, IBM Research – Quantum

Summer 2020

- Working on Clifford circuit optimization under the supervision of Dmitri Maslov

Intern, Quantum Artificial Intelligence Lab (QuAIL)**Spring 2020****NASA Ames Research Center (KBR)**

- Developed novel analysis connecting the symmetries in problem instance structure to the performance of Quantum Approximate Optimization Algorithm under the supervision of Salvatore Mandra
- Performed extensive numerical simulations using HPC resources

Research Aide, Argonne National Laboratory**Summer 2018, 2019**

- Developed quantum-accelerated frameworks for network community detection and graph partitioning under the supervision of Yuri Alexeev
- Co-authored 6 papers on quantum optimization and machine learning (5 first author)
- Contributed to multiple proposals

Contributed Talks and Posters

Quantum Computing Tutorial *Argonne National Laboratory***Jun 15, 2020**Led [a tutorial on Quantum Approximate Optimization Algorithm](#).**SIAM Conference on Parallel Processing for Scientific Computing (PP20)** *Seattle, WA***Feb 13, 2020**

Gave talk "Multilevel Hybrid Quantum-Classical Algorithms on Graphs"

Information Science and Technology Institute Seminar *Los Alamos National Laboratory***Nov 26, 2019**

Gave talk "Practical Optimization on Near-term Quantum Computers"

Supercomputing '19 *Denver, CO***Nov 17-22, 2019**Gave talk "Hybrid Quantum-Classical Algorithms for Graph Problems: Forging a Path to Near-Term Applications" at the [Clemson booth](#) and at the [SC Theater](#)**Mathematics and Computer Science Seminar** *Argonne National Laboratory***Nov 15, 2019**

Gave talk "Practical Optimization on Near-term Quantum Computers"

Quantum Computing Seminar *Oak Ridge National Laboratory***Nov 4, 2019**

Gave talk "Practical Optimization on Near-term Quantum Computers"

International Green and Sustainable Computing Conference (IGSC 2019) *Alexandria, VA***Oct 22, 2019**

Presented poster "Reinforcement Learning for Quantum Approximate Optimization"

Chicago Quantum Exchange Meeting *University of Chicago***June 12, 2019**

Presented poster "Practical Quantum Approximate Optimization"

SIAM Conference on Computational Science and Engineering (CSE19) *Spokane, WA***Feb 25-28, 2019**Presented poster "[Quantum Local Search for Graph Community Detection](#)"**Quantum Computing Tutorial** *Argonne National Laboratory***Dec 10-11, 2018**Gave talk "[QAOA Algorithm Introduction](#)"**Supercomputing '18** *Dallas, TX***Nov 11-16, 2018**

Gave talk "Community Detection Across Emerging Quantum Architectures" at Clemson booth

Quantum Computing Workshop *Argonne National Laboratory* **Jul 25-27, 2018**
Presented preliminary results on "[Machine Learning on Near-Term Quantum Computers](#)"

32nd Clemson Mini-Conference on Discrete Mathematics and Algorithms *Clemson University* **Nov 4, 2017**
Presented poster "Relaxation-Based Coarsening for Multilevel Hypergraph Partitioning"

58th Scientific Conference *Moscow Institute of Physics and Technology* **Nov 23-28, 2015**
Gave talk "IPC (Inter-Process Communication) in OS X"

Leadership and Service

Requested Reviewer (peer review)

- [Quantum](#) journal
- IEEE Transactions on Computers
- IEEE Transactions on Quantum Engineering

Supercomputing '19 *Denver, CO* **Nov 17-22, 2019**
Student volunteer, run tutorials, technical program session and Birds-of-Feather

SIAM Conference on Parallel Processing for Scientific Computing (PP20) *Seattle, WA* **Feb 12-15, 2020**
Led and co-organized a minitutorial "[Combinatorial Optimization on Quantum Computers](#)"

SIAM Conference on Parallel Processing for Scientific Computing (PP20) *Seattle, WA* **Feb 12-15, 2020**
Co-organized a minisymposium "Recent Advances and Trends in Hybrid Quantum-Classical Algorithms"

Quantum Computing Tutorial *Argonne National Laboratory* **May 14, 2019**
Led and co-organized a [hands-on tutorial for Qiskit, a framework for quantum computing](#)

Mathematics Teacher, Summer School *Kostroma, Russia* **Summer 2014**
School administrator, organized extracurricular activities.

Teaching

Network Science CPSC 8480 *Clemson University* **Fall 2018, 2019**
Teaching Assistant responsible for grading and answering students' questions during office hours

Design and Analysis of Algorithms CPSC 8400 *Clemson University* **Spring 2019**
Teaching Assistant responsible for grading and answering students' questions during office hours

Algorithms and Data Structures CPSC 2120 *Clemson University* **Spring 2019**
Teaching Assistant responsible for running the lab section, grading and answering students' questions during office hours

Mathematics Teacher, Summer School *Kostroma, Russia* **Summer 2014**
Created and taught a course on basics of graph theory, combinatorics and number theory to middle and high school students.

Languages and Technologies

C , Python

Prior experience: C++, MATLAB, Objective-C, Swift, Bash, IBM QISKit

Limited prior experience: R, SQL, yacc, bison, AWS, Google Cloud Engine, Rigetti PyQuil

Technologies and tools: UNIX/Linux, MPI, OpenMP

Honors and Awards

- International Green and Sustainable Computing Conference (IGSC 2019) student travel award, *recipient*
- Best Student Paper at IEEE HPEC 2019 (of ~50 student papers), *recipient*
- IBM Teach-the-Qiskit-Teacher training program, *selected to represent Argonne National Laboratory*
- Upsilon Pi Epsilon CS Honor Society, *member*
- Supercomputing '19 Student Volunteer Travel award, *recipient*
- SIAM CSE '19 Broader Engagement Travel award, *recipient*
- Clemson CCIT Supercomputing '17, '18 and '19 travel award, *recipient*
- Clemson Graduate Travel Grant, Spring '19, *recipient*
- Moscow Institute of Physics and technology Abramov scholarship - Top 300 students in the university, based on high academic achievement, *recipient*
